

FOR CREATIVE STRATEGISTS

You do not need a portfolio to close creative strategy clients.

There is something more important. I call it proof of thinking.

THERE IS SOMETHING MORE IMPORTANT

I call it proof of thinking.

Here is why, and how to build one in an afternoon.

WHY PROSPECTS DO NOT CARE ABOUT PORTFOLIOS

Two kinds of prospects look at your work.

The ones who have never hired a copywriter cannot judge it. They do not know if the copy converted. They do not know what the brief was.

The ones who have hired before can see you did the job in the past. They still do not know whether you can do this job, for them, this week.

WHAT BOTH PROSPECT TYPES ACTUALLY WANT

Short, specific thinking about their business.

Something that shows you already watched their ads, read their landing page, and caught one idea they missed.

PROOF OF THINKING, DEFINED

One page about them. Not you.

What their ad is doing well. What you would test next. What the test would reveal.

A TEARDOWN TEMPLATE YOU CAN STEAL

- 1 Screenshot their ad.
- 2 Mark three things you would change.
- 3 Write one line for each: what and why.
- 4 Send it as your first message. No rate. No call ask.

TIME TO BUILD

Under 90 minutes per page.

Faster than building a portfolio. Higher reply rate than any portfolio link.
