

FOR CREATIVE STRATEGISTS

Your portfolio is **KILLING** your outreach reply rate.

Here is what is outperforming it by 3x.

WHAT A PORTFOLIO ACTUALLY PROVES

One thing. You did some work in the past for somebody else.

That is the whole ceiling.

WHY THAT IS NOT ENOUGH

A prospect who has never hired a copywriter cannot judge your samples. They do not know if the copy converted, what the brief was, or what you actually contributed.

A prospect who has hired before can only see: you did work. They still do not know if you can do this work, for them, right now.

WHAT THE OTHER APPLICANT IS SENDING

One page of thinking about the prospect's business.

One paragraph on what their current ad is doing well. One on what they would test next. One on what the test would reveal.

WHY IT WINS

It answers the only question the prospect is asking.

Can this person think about my business, right now, in a way I cannot already do myself?

TIME TO BUILD: 90 MINUTES

A portfolio takes months. A single page of real thinking takes under two hours.

And the page outperforms the portfolio on every single outreach send.

Want to know where your thinking sits?
